

DDSCondition

```
graph BT; DDSGuardCondition --> DDSCondition; DDSStatusCondition --> DDSCondition;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'DDSCondition'. Below it, two boxes labeled 'DDSGuardCondition' and 'DDSStatusCondition' are positioned side-by-side. A horizontal line connects the top of these two boxes, and a vertical arrow points upwards from the center of this line to the bottom of the 'DDSCondition' box, indicating that both 'DDSGuardCondition' and 'DDSStatusCondition' inherit from 'DDSCondition'.
